# 10 STEPS YOU CAN TAKE TODAY

Want to take charge of your health, wellness, and success?  
Here are 10 steps that can move you closer to your goals – today.

- Read more about the Spatial Web to find out how it will impact the future of your work and livelihood.
- The world is changing. In the future, technology will allow us to work smarter and more efficiently. Embrace emerging and exponential technologies, and become adept in the skills that will help you thrive.
- Be prepared for the effects of AI and automation on your livelihood. Do some research on which industries will be most affected and develop a plan to switch careers or develop new areas of expertise if necessary.
- Upgrade my skill set so that I don't become obsolete as AI and automation becomes faster and smarter than humans.
- Aim to develop a community that focuses on communication, literacy, technology, and the environment in order to contribute to the preservation of humanity.
- Research cryptocurrencies like Libra and develop an understanding of how they will affect the future of technology, currency, and humanity.
- Be more critical about data collection policies both as a business and as a consumer. Almost all of your data can be accessed online so it's wise to know your rights and limitations.
- Leverage digital technologies by upgrading and automating large sections of your business processes.
- Develop a globalized mindset wherein I understand how the international economies and the World Wide Web are interlinked across all corners of the globe.
